

Aagami — Login Screen Design Specification

1. Color Tokens (Material 3 mapping)

Token	Hex	Usage
primary	#2563EB	Buttons, links, focused field border, icons
primaryContainer	#DBEAFE	Logo glow / hero gradient wash
secondary	#F59E0B	"Sign Up" link, small accents
background / surface	#FFFFFF	Screen background
surfaceVariant	#F9FAFB	Text field fill
outline	#E5E7EB	Field borders, dividers
onSurface	#1F2937	Primary text
onSurfaceVariant	#6B7280	Secondary text, hints, footer

Token	Hex	Usage
error	#DC2626	Validation error text/border

Gradient accent: `linear-gradient(135deg, #2563EB 0%, #3B82F6 100%)` — used on the logo badge and the primary button.

2. Typography

Font family: Poppins (headings, buttons, brand) + Inter (body, inputs, footer). Both are available via `google_fonts`.

Style	Font	Size	Weight	Line height
Brand name	Poppins	24sp	700	1.2
Tagline	Inter	13sp	500	1.3
Heading ("Welcome Back!")	Poppins	24sp	600	1.25
Subtext	Inter	14.5sp	400	1.5
Field label	Inter	12.5sp	600	1.3
Input text	Inter	15sp	400	1.4

Style	Font	Size	Weight	Line height
Button label	Poppins	16sp	600	1.2
Body / links	Inter	13.5-14sp	500-700	1.4
Footer	Inter	11-11.5sp	400-500	1.4

Minimum tappable text size is 12sp, meeting accessibility guidance for mobile; all interactive text sits at 13.5sp or above.

3. Spacing Scale

Base unit: 4px. Screen horizontal padding: 24-26px.

Token	Value	Used for
<code>xs</code>	4px	Icon-to-text gaps
<code>sm</code>	8px	Label-to-field gap, checkbox-to-label
<code>md</code>	16px	Between form fields
<code>lg</code>	24px	Section breaks (divider, footer top)
<code>x1</code>	32px	Logo block to heading

- Text field height: 52-56px
- Text field radius: 14px
- Primary button height: 54-56px
- Primary button radius: 16px (fully rounded, pill-leaning but not a stadium shape)
- Card/logo badge radius: 22px

4. Elevation & Shadows

- Logo badge & primary button: soft colored shadow, 0 10px 20px rgba(37,99,235,0.28) — keeps shadows tinted to the brand color rather than flat black, per Material 3 "tonal elevation" spirit.
- Text fields: no shadow at rest; on focus, a 4px soft blue glow ring (rgba(37,99,235,0.12)) replaces elevation, which is more accessible than shadow-only focus states.

5. Interaction & Motion

- Page load: content fades up (200ms delay, 400-500ms ease-out, 12-16px translate) — one orchestrated entrance, not per-element confetti.
- Button press: scale to 0.97 with AnimatedScale (100-120ms) + shadow softens, using GestureDetector.onTapDown/onTapUp .
- Field focus: border color and glow animate over 150ms via AnimatedContainer .
- Password visibility toggle: icon swap, no layout shift.

- Respect `MediaQuery.disableAnimations` / reduced motion where the OS setting is on.

6. Flutter Widget Hierarchy

```

LoginScreen (StatefulWidget)
├── Scaffold
│   ├── SafeArea
│   │   ├── SingleChildScrollView
│   │   │   ├── FadeTransition +
│   │   │   └── SlideTransition (page-load animation)
│   │   │       ├── Padding (24px horizontal)
│   │   │       │   ├── Column
│   │   │       │   │   ├── SizedBox (top
│   │   │       │   │   │   spacing)
│   │   │       │   │   │   ├── _LogoBadge
│   │   │       │   │   │   │   (Container + CustomPaint/Icon stack)
│   │   │       │   │   │   │   ├── Text "Aagami"
│   │   │       │   │   │   │   │   (Poppins, 700)
│   │   │       │   │   │   │   │   ├── Text "Your Career
│   │   │       │   │   │   │   │   │   Starts Here." (Inter, muted)
│   │   │       │   │   │   │   │   │   ├── SizedBox (32)
│   │   │       │   │   │   │   │   │   ├── Text "Welcome
│   │   │       │   │   │   │   │   │   │   Back!" (Poppins, 600)
│   │   │       │   │   │   │   │   │   ├── Text "Sign in to
│   │   │       │   │   │   │   │   │   │   continue your career journey."
│   │   │       │   │   │   │   │   │   ├── SizedBox (24)
│   │   │       │   │   │   │   │   │   └── _AagamiTextField
│   │   │       │   │   │   │   │   │   (Email/Mobile)
│   │   │       │   │   │   │   │   │   │   └── TextFormField
│   │   │       │   │   │   │   │   │   │   (rounded OutlineInputBorder, prefixIcon)
│   │   │       │   │   │   │   │   │   │   ├── SizedBox (16)
│   │   │       │   │   │   │   │   │   │   └── _AagamiTextField
│   │   │       │   │   │   │   │   │   │   (Password)
│   │   │       │   │   │   │   │   │   │   └── TextFormField
│   │   │       │   │   │   │   │   │   │   (obscureText, suffixIcon eye toggle)

```

```

+ Text "Remember Me"]
"Forgot Password?"
(Login"      (AnimatedScale wrapper)
(Expanded Divider - "OR" - Expanded Divider)

 |— SizedBox (24)
 |— _GoogleButton
 |— SizedBox (24)
 |— RichText "Don't
 |— Spacer / SizedBox
 |— _Footer
 | |— Row
 | |— Text "Version

7. Accessibility Notes

- Contrast: #1F2937 on #FFFFFF $\approx 14.6:1$; #2563EB on white $\approx 4.6:1$ (passes AA for large/bold text and UI components).
- All tappable targets $\geq 48 \times 48$ dp (checkbox hit area padded, eye-icon button padded).

- Text scales with system font size
(`textScaleFactor` respected — avoid fixed-height text containers).
- Every `TextFormField` has a semantic label via the `label` above it, not placeholder-only.
